

Global Initiative to Free Trafficking Victims (GIFT)

To,

Sardór and Sarvár

Sleep & Beyond Co-founders

Los Angeles, CA.

Thank you for generous in-kind gift of organic and natural bedding to Global Initiative to Free Trafficking Victims (GIFT) in April 2018. GIFT could not do what it does without the generous support of a caring community and our corporate sponsors.

GIFT is a California nonprofit working to **prevent** human trafficking of at risk children and young adults through comprehensive services that assist survivors in every phase of their healing journey through empowerment, leadership training, educational opportunities and mentorship. Our mission is to prevent and end human trafficking locally and globally by creating educational, outreach and advocacy opportunities and community engagement.

PHILOSOPHY

The working philosophy behind GIFT is simple. Human Trafficking is an international crime and the average age of a child trafficked into the sex trade is between 4-5 years old. We must build international partnerships to end this epidemic. The need to create an International Court to combat human trafficking is compelling. GIFT empowers survivors to overcome their traumatic pasts and become leading voices in shaping policy and creating public awareness to end the fastest growing international criminal enterprise of our times.

HOW WE DO IT?

We believe that prevention is a key component of comprehensive care. Education, Access to better healthcare and creating Employment opportunities are proven ways of combating this growing criminal enterprise. GIFT takes a Holistic Approach to eradicating trafficking by working with our international partner organizations, the survivors and community partners. We support their care in transitional homes by offering a Mind, Body and Spirit Healing through Medical care, Psychological Support, Wellness Coaching, Meditation, Yoga, Art, Vocational training, so they have the tools and support to reintegrate to society. We strive to create a network of successful people from the community in every country to engage and provide time, resources, and talents to empower the survivors in a secure environment that is healing for everyone involved.

On behalf of the entire GIFT community, I extend heartfelt thanks for your generous donation and I look forward to your continued support.

Gratefully,

MANNA DABHOLKAR
